A teacher and a mother. We are so blessed with the love of God and each other. I admire you very much Lady. So this year I will find a favorite candy- not just for me, but for a loved one that I hope to meet one day. I wonder how many of you pick up a gift for your own children as part of the Christmas traditions. Do you? What traditions do your own family have? Years ago we spent Christmas in Highlandtown, so we visited the shops that were open and exchanged gifts with relatives. This year I will mark off each of the six weeks,

making sure I make some purchases each week with gift money to hand them out. I've loved painting with watercolors, listening to my children's music, and spending time with family. Along with the TV shows and movies that have been hit, I love music to make me smile. I hope you do too. Happy Holidays and Blessings to you. Saturday, December 25, 2013 Dear Santa, My son has been asking about Christmas for weeks and what to get for the man himself. Today he looked at Santa and said, "Who am I giving something to?" My husband and I looked at each other then said,

New Fantasy Action RPG - Dev Play-through by Slickgamer-Jr on Games-on-Demand (get it on Itch.io or get it on STEAM) That's right, folks, here we are. The year is 2019, and I'm here to show you all a little video, a review, and a changelog for the game Rise of Tarnished that I was lucky enough to play during the 2017 annual quest season. The game is up on PC as of now, but it's getting the final Steam release tomorrow and will also be available on Itch.io and STEAM, where it can be played as free-to-play. So before I go into this little review of Rise of Tarnished, I just want to make sure you know: if you get this for free, it's a pretty decent-looking game. If you enjoy Dark Souls, Bloodborne, or other such games, then you'll probably love this game. But as far as gameplay - and we'll get into that pretty quickly - there's not really much else I can say for you. So for now, I'm going to talk about something else: like the developers' stance on the game itself. As you may or may not have figured out from the title of this article, I'm going to try and keep my thoughts on the game as unbiased as possible. That said, it's a bit of a tricky thing for me to do because I am the kind of person who is going to go and pre-order games at full price and then dislike them after they release. If that's what you do as well, and you're interested in the devs themselves, then you might want to stop reading right now. As I said, though, I'm going to try and keep my thoughts on this game as neutral as possible, so it should be a fairly interesting read. A DIRT FACTOR FOR YOU ALL Okay, so first things first. This game is an RPG. It's basically a fantasy action RPG, but unlike almost everything else in the genre, it's pretty low-budget. It's on PC, but it has a hell of a lot of content for the price. It's kind of like Dungeons bff6bb2d33

What's new:

Imina in the previous (Steam) version of the game had become much weaker than she originally was. This was also a problem for players that wanted to play in her class but did not want to run around in a typhoon for weeks on end. To make the new characters intermidiate unique and in-between the older ones I had to removed some of their unique strengths and granted them specifi classes to get them into the game. I've never played Dark Souls or Bloodborne but I love the Bloodborne-esque concept of the game where each class has its own strengths and weaknesses.

Just noting to say as a further point of interest to the playerbase the game now also features the elle and Puss in Boots classes on PC! I have also always been excited by the character visual changes you can make to your avatar so I decided to include a few character images from class-change transformations for the characters in game somewhere. I hope you like the gifs they look much better than my usual drawings:)KOLKATA: The organisation behind the murder of rationalist Narendra Dabholkar said we will only stop till we eliminate all the risk, "and then, only we shall stop," Sudhanshu Upadhyaya, the leader of the International Society for Krishna Consciousness (ISKCON), said in Kolkata on Saturday. On the day of the anniversary of the murder of the rationalist, Upadhyaya said that threats of bombings and reprisal for "sensational" murder of a Kolkata youth by police in Andhra Pradesh will not deter his organisation from its mission. A total of 37 bombs were planted in different parts of the city as part of his plot as well as the organisation's Bihar plans after the murder of Dabholkar was revealed a year ago, Upadhyaya said. The police claimed they had found information about the plot in the raids prior to his arrest. Upadhyaya denied it categorically. "We planted the bombs in five different places in Kolkata. The police arrested so many people and there were no explosions in Kolkata. We announced our Andhra Pradesh blast plans," he said. His statement was made in the presence of a few of his close aides, the ISKCON's Karnataka state head, Srikanta Das. The organisation's state convener of Andhra Pradesh Santosh Kumar Padukone and central leader Murali Pillai, were there
