**EmailTags For Outlook Free**

---

1. Email Tags for Outlook is a helpful add-in for Microsoft Outlook. This handy tool enables you to add a set of custom tags to your Outlook email folder. There is no need to remember long file names. All tagged items are grouped automatically,

---

enabling you to find what you are looking for easily. 2. Email Tags for Outlook can help you tag messages with either simple or advanced criteria.

You can assign email messages to your predefined folders by using the native Outlook tags (Favorite, To Do, etc.). Or you can

---

create your own tags based on the file contents, and use them to sort your tagged emails in accordance with criteria that are relevant to your needs. 3. Email Tags for Outlook is now available in both Personal and Business versions. It can be easily installed to

---

your Outlook Outlook  
Express or Outlook.

**\*\*Outlook Tags -  
Organize and Find  
Email Faster With  
this Outlook tool,  
you can easily  
organize and find  
your emails. Create  
email folders and set  
up tags. You can  
organize email with  
just a few clicks.  
Use filtering to**

---

quickly find emails that are tagged with certain keywords. Or use search to find emails that were deleted and then later found. Easily use email tags with various criteria to organize your email faster. \*\*Advanced Email Search Search email messages by keywords or tag

---

names. Go deep with advanced options, such as by attachments, date, size, and subject. Find full-text emails by searching for the whole text. Send your searches to Gmail or save to a file.

**\*\*Batch Organization**  
Email Organizer is the perfect tool to classify email

---

messages in one click. You can create as many email folders as you want. After you set up a folder, you can drag and drop all emails into that folder. You can also drag emails to the Trash. You can even set the default folder that you start with when you open email. \*\*Email

---

Filtering You can setup filters to select messages by sender, keywords, or subject. Then apply the filtering to email folders. Create a filter to find messages that don't have an attachment or those that haven't been opened in 5 days. Also filter by attachment or date.

---

**\*\*Find Great Attachment Names**  
Email Organizer makes the attachment names appear more intelligent. This feature can help you to create or update email messages. You can also search by file name, if you use your own email client. **\*\*Create and Edit Tags** Tags can be

---

created easily to set  
up criteria for  
organizing email  
messages. aa67ecbc25
