Coming Soon]]>Thu, 30 Jun 2013 16:48:00 +0000 Monsters, Caves, and Dungeons.]]> @Facebook @Tumblr Ok...Elden Ring is getting big and presents an upcoming release in the publishing industry that shall be reviewed about in the upcoming months. But since a lot of work got done, and it is quite a big release, I have mostly the League of Reborn, and my own personal projects to show you. Along with a couple of great Monster games (Tales of Cthulhu and Magical Alphabet) and a game where you play a cave-dwelling man that gets hit with fast food. So here are a couple of screenshots. (Ta-da!) Item: ♥ Books As requested by Patreon, some nice Books are coming in. Go go go! The third (2nd if you discount the app) of three, "The Cathedral" is already out for a bit of a review. (Please give me the review!) If you read the first two, start reading here. It takes to the same place, but you get a nice collection of books. Cost: ♥ Patreon I have been thinking about creating a Patreon, but didn't really know if it is good for single-person development. If any of you is willing to join, just let me know and I'll give you access to Patreon at an early stage and early access to the games on there. Then you can leave a nice review and your name

The online ladder system keeps you playing, and there is always something to do, whether it be the daily draws, local activities, or lots of interesting things to do in every city. It's also got a rather unique character art that is unparalleled. This game captures the feeling of travel in a way that few sims do.
