Movies Download.Q: Excel:
Formatting Date/Time Cells I'm
trying to format a few date and time
cells (C5, C6, E5, E6) based on my
desired formatting for the day

(Monday, Tuesday, etc.) My formula is =(WEEKDAY(D5,1)) I'm not super familiar with Excel so if anyone can help it would be much appreciated!

A: E5 and E6 are cells, not formulas, so you need to reference the cell rather than the result of the

formula. Try:

=IF(WEEKDAY(C5,1)=5, "Monday", "") Or better:

=IF(WEEKDAY(C5,1)=5, "Monday", "") =IF(WEEKDAY(C6,1)=5, "Tuesday", "")

=IF(WEEKDAY(E5,1)=5, "Tuesday", "") =IF(WEEKDAY(E6,1)=5, "Tuesday", "") To quickly change

the format of those cells, select the entire row. In the Format Cells dialog, choose the first menu item, and select a new format. Islamabad, Pakistan - Tensions between Pakistan and India were running high following e79caf774b
