The Winter War (20th-26th, 1939-40) was a catastrophic three-year struggle between Finland and the Soviet Union for control over Finland's western and northern territories. The Soviet Union's interests in Finnish Karelia and the Kola peninsula originated with the early-20th-century border negotiations between the two governments. The Soviet Union's accession to the League of Nations, made it a member-state of the world body. As a direct result of the 1929 Soviet-Finnish Non-Aggression Pact, Soviet troop concentrations were allowed on Russian-Finnish border. If the Soviets invaded Finland,

or threatened to invade, the Finns would have to fight for their very survival. The Winter War is one of the more underestimated conflicts in the history of Finland, which is a shame considering how devastating it was. While the Finns gained victory over the Soviets in 1941, the Winter War had an even greater impact on Finland. The war had a major influence on the Constitution of Finland and led to the rise of strong socialist elements in Finland's media, economy and politics. You may choose to fight for Finland, or the Soviet Union. Be sure to download the 15,000+ free unit models! Languages support: - English - Russian (Updated 1.9x) - Finnish - German Compatibility: Android 2.1 and up. Supports tablets. Be sure to follow us on Facebook or visit our website. If you have any suggestions, feedback or questions, feel free to message me or drop a comment. Thanks for playing! Finnish troops were able to hold the majority of the battlefields, and the Soviet strategy was to attack from the Soviet side of the border. They took low-quality objectives such as trenches and machine gun nests. The Finns were able to completely prevent the Soviet from crossing any of the nation's borders to seize the territory. Soviet Objectives: Soviet units could try to capture the following objectives: • Finnish objectives - Establish line of defense on the Mannerheim Line (Tolvajarvi) - Secure Raate Road (Suomussalmi) - Secure Tolvajarvi Lake with armistice (17.4.40) - Take T26 and T28 tanks (west side of lake) • Finnish objectives - Secure Raate Road (c9d1549cdd
