The Court's opinion should not be read to suggest that TIGA's failure to bring an action against the drug companies could be excused if the victims were not able to meet their burden of proving their cause of action. TIGA's interests in these cases, however, do not include preventing the victims from obtaining *1362 their legal remedy. TIGA is concerned only with the adequacy of the compensation being provided the injured victims. Id. at 1240 (emphasis added). In Short v. United States Steel Corp., 989 F.2d 908 (8th Cir.1993), the Eighth Circuit reached the same result in an appeal by Steelworkers participants from a District Court's action to enjoin TIGA from paying off the participants' notes by using damages awards levied against the employer: "While the purpose of the plan in Short was to compensate participants for injuries suffered as a result of exposure to asbestos, the purpose of the plan in this case is to compensate participants for losses caused by an erroneous diagnosis of mesothelioma." Id. at 918 n. 16. The Court therefore rejects the argument made by plaintiff that the plan should be deemed to be uninsured for the time period between the filing of the first lawsuit against the drug companies in February 1985 and the resulting settlement in January 1989. For the same reasons, the Court rejects plaintiff's argument that the Dalkon Shield itself is an uninsured party. As stated above, the Court holds that the alleged failure of the drug companies to warn the public about the Dalkon Shield was not a proximate cause of the injuries alleged in plaintiff's complaint. Because the Court holds that the product is not an uninsured party, the Court also holds that plaintiff's claim for a declaratory judgment in its favor is not viable. CONCLUSION For the reasons stated herein, the Court sustains defendant's Rule 12(b)(6) motion to dismiss as to plaintiff's claim for a declaratory judgment in

Thank you! A: Thank you for the feedback and for the comments, I'm glad that you actually found this guide helpful. I was really struggling to find a tutorial that was really written in a way that would help people out. Hopefully this solved your problem. The tutorial is structured in such a way that it should be pretty easy to follow if you want to understand how CSX file is structured and how you can convert it to CSV format. This is not a CSX to CSV conversion tutorial. The conversion feature of the uTorrent plugin is much more than that. It is more like an ISO burner. It converts the files on the fly. It's not necessary to convert the files to CSV in the first place. You could have just directly outputted a CSV file without any need to go through the intermediate step of converting to CSV.
