## **IDM635Build10inclPatch32bit64bit64bit**

A: As a guess, it looks like your builtin IIS URL request monitoring is not running. When you start IIS, the Management Service will launch the built-in IIS URL request monitoring service. All MSV1\_0 services and MSV1\_1 and MSV1\_2 binaries need to be set as Automatic(Delayed start). You can also define the properties of the service for example Start Type = Manual; ServiceDependencies = Microsoft.Web.Management; StartupType = Automatic; Q: How to make a dynamic statement in SQL Server I am trying to make a dynamic statement in SQL Server, but the SQL engine doesn't recognize the data I am trying to pull. This is the SQL statement I am using: CREATE TABLE #userProdVend (userID int, productID varchar(10), qty int) INSERT INTO #userProdVend (userID, productID, qty) VALUES (12, '12345678997876',10) select (select (select (CASE when qty >= 1 then qty else 10 END) 6d1f23a050
