Grau Gmbh and Grau Software Team have just released the fifth version of their video repair software .In the prior art, because of the limited amount of space within a vehicle, it is difficult to install a display in one of the four corners of the vehicle. Prior art liquid crystal display panels contain a back light. The light from the back light can be seen from outside the display if the panel is not covered. This invention provides a method for covering liquid crystal display panels so that the back light cannot be seen from outside of the display and some of the displayed images can be seen from outside of the display. The invention further provides a more effective and cost efficient method for covering the liquid crystal display panels. - 5 * c . D e t e r m i n e l (j (r c6a93da74d
