NH Folder Hider And Locker Crack +

File Hider & Locker is the best data security software that combines a folder locator with an archive manager. It is the perfect combination of both: it locates your files, then hides them from your folders, then locks your files with a password, and finally gives you the option to unlock files and folders if you want to. It has many additional features, such as an alarm clock, disk wiping, backup and restore, a scheduler, and more. You will be amazed by the productivity boost that it will bring to you! KEYMACRO Description: Folder Hider & Locker is the best data security software that combines a folder locator with an archive manager. It is the perfect combination of both: it locates your files, then hides them from your folders, then locks your files with a password, and finally gives you the option to unlock files and folders if you want to. It has many additional features, such as an alarm clock, disk wiping, backup and restore, a scheduler, and more. You will be amazed by the productivity boost that it will bring to you! Similar News As promised on the announcement page, you can now get Desktop Audio Recorder for both Windows and Mac from Softonic. You can take the trial version of the application and use it to record voice and other audio or video that you capture with your webcam. Record anything you want, from your computer and webcam to your phone, and then import it in Windows or macOS. Here's how it works. On Windows, the application is installed as a special driver, and... Softonic has launched Cloud App Backups for Android and iOS, a feature that is designed to help developers and app owners to get backup of their Android and iOS applications and resources. The feature does not require the application to be installed, and can be used to protect them against apps that are removed or modified. This can be done for both paid and free apps. Here's how it works. Once you install the application, it will ask to be... If you've ever wanted to watch a DVD in the comfort of your own home, but didn't know where to start, then you'll like the new VLC Lite, which has just been released for Android. VLC Lite is built using the player that is available on Windows, Mac, and Linux, and is a light-weight version of it that requires only 50 MB of free space on your device. Here's how it works. VLC Lite uses 2edc1e01e8

NH Folder Hider And Locker Crack+ Incl Product Key

NH Folder Hider and Locker is an application aimed towards users who need to protect data from both local or remote threats. A folder locker will render a directory or a file inaccessible, preventing ill-intended individuals from stealing or replicating your information. Most similar tools will protect folders by assigning a password to them, which in the end might be cracked. However, NH Folder Hider and Locker use a more simple but effective way, sealing a directory shut until the owner decides to unlock it. Lock your items with no effort Restricting access y a folder is very simple. Find the Folder Lock category and click it. Next, you'll have to manually select a directory from the drive. Click Lock to finalize the folder's lockdown. To test the app's efficiency, try to open the locked folder, or delete it. If everything goes well, accessing a locked folder will generate two text bubbles informing anyone trying to open the directory about administrator permissions, and then close itself. You've probably noticed the Unlock button while locking an item. That's the only way to regain access to your own folder contents. Yes, even you as the owner will be stopped from accessing a locked folder. Just select a locked item and pres unlock in order to lift restrictions. Changing the drive icon is a neat function on the other hand, but not very important. In case you are tired of how your drives are displayed, you can add different icons to them. A good solution for protecting your folder data NH Folder Hider and Locker App Details: NH Folder Hider and Locker Description: NH Folder Hider and Locker is an application aimed towards users who need to protect data from both local or remote threats. What's New In?

NH Folder Hider and Locker is an application aimed towards users who need to protect data from both local or remote threats. A folder locker will render a directory or a file inaccessible, preventing ill-intended individuals from stealing or replicating your information. Most similar tools will protect folders by assigning a password to them, which in the end might be cracked. However, NH Folder Hider and Locker use a more simple but effective way, sealing a directory shut

until the owner decides to unlock it. Lock your items with no effort Restricting access y a folder is very simple. Find the Folder Lock category and click it. Next, you'll have to manually select a directory from the drive. Click Lock to finalize the folder's lockdown. To test the app's efficiency, try to open the locked folder, or delete it. If everything goes well, accessing a locked folder will generate two text bubbles informing anyone trying to open the directory about administrator permissions, and then close itself. You've probably noticed the Unlock button while locking an item. That's the only way to regain access to your own folder contents. Yes, even you as the owner will be stopped from accessing a locked folder. Just select a locked item and pres unlock in order to lift restrictions. Secondary features Hiding folders is kind of a secondary feature, even if the process is in the name. Still, hiding folders is not a complicated process to complete, as even the operating system offers this service by default. Changing the drive icon is a neat function on the other hand, but not very important. In case you are tired of how your drives are displayed, you can add different icons to them. A good solution for protecting your folder data To summarize, NH Folder Hider and Locker is a straightforward tool designed to help you protect folder contents from unwanted access. The app is very responsive and looks bug-free. Still, there is an aspect to it that makes it annoying, without breaking it, and that is the impossibility to freely move the UI, or resize it. However, if you can ignore this fact, you'll have no issues using it. Developer: Dr. Space Crackers, Inc. Price: Free Reviews Reviews for NH Folder Hider and Locker (1 5 stars) by paul , 08/22/2013 I hate the folder locker stuff, but NH Folder Hider and Locker is very cool. The way I see it, it may be useful for people who don't know what they're doing. It protects me from myself. (1 5 stars) by Fritz , 10/20/2013 Locking a folder or file that you have direct access to is probably not the most secure way to go. Please think this through, even

System Requirements:
